CORBIJN + CLOONEY: A SCHIRMER/MOSEL WORLD PREMIERE

Just published: *INSIDE THE AMERICAN*
Anton Corbijn's picture diary about his new movie
with George Clooney

As thrilling as the movie, Corbijn's photo book *INSIDE THE AMERICAN* has just been published with Schirmer/Mosel. In 116 color photographs and mostly full-page plates the Dutch director and star photographer relates about the making of his first Hollywood production, *The American*. With George Clooney as the main lead, the book centers, of course, on this Academy award-winning actor: playing the coldblooded contract killer, clowning around with the team, and, quite a sight, topless during his daily workout.

I love the angular shaped butterfly tattoo on George's back. Such the character, very well.

Beautiful Thekla in the autumnal hills, usually got Cathie's beautiful smile. Honestly.
